

EXCEEDING YOUR BIGGEST EXPECTATIONS

PROJECT CARGO DIVISION

EXCEEDING YOUR BIGGEST EXPECTATIONS

MEET YOUR DEDICATED TEAM

Each project is coordinated by a specialized, single point of contact who is accessible 24/7. Teams are available in Europe, China, Singapore, Brazil, Middle East, USA and Australia for your convenience.

EXPECT OPERATIONAL EXCELLENCE

Our seven teams around the world deliver best-in-class consulting, planning and execution. We take an integrated approach and assign a dedicated project manager to each and every project.

EXPERIENCE TAILOR-MADE SOLUTIONS

We rise to every XXL challenge. Our Technical Engineering Department integrated with the Project Cargo team, designs technical solutions for the entire journey including lifting and stowage plan, lashing & securing plan, lashing calculation and deliver method statement.

TRUST OUR TOP-NOTCH SAFETY

Our technical and engineering know-how ensures secure handling and transportation of your special project cargoes and supervision of loading and discharging operations by cargo surveyors. We thoroughly monitor all project stages.

BENEFIT FROM GLOBAL COVERAGE

Our efficient loading and discharging capabilities in over 420 ports combined with our more than 250 service lines guarantee regular sailings and short transit times.

FIND A SOLUTION TO YOUR NEEDS

BREAK BULK

A solution for cargo whose dimensions greatly exceed standards

- Cargo loaded on a bed of flat-rack containers
- Technical feasibility and associated costs worked out upon receiving RFQ
- Through the loading and discharging operational execution and coordination
- Supervision of operations by cargo surveyors
- Technical solutions designed by experienced Project Cargo engineers

OUT OF GAUGE

A solution for cargo whose dimensions slightly exceed standards

- Cargo loaded on a single open-top container or flat-rack
- Guaranteed under-deck stowage
- Worldwide equipment availability (up to 47 mt payload)
- Flat rail system accepted
- Door-to-door transport
